

## NGA-NASA Commercial Very-High Resolution Satellite Data Use Agreement

This Agreement is between \_\_\_\_\_ and the National Aeronautics and Space Administration (NASA), Goddard Space Flight Center, with the understanding that the commercial very high resolution satellite data provided by NASA for use in the NASA project identified below falls within the terms of the National Geospatial-Intelligence Agency’s Nextview License Agreement (attached). By receiving data under this agreement you agree to adhere to the end-use of the data:

1. The data covered herein are data that have been collected by Digital Globe and/or GeoEye programs under the EnhancedView program including predecessors (Clearview and Nextview) by the National Geospatial-Intelligence Agency.
2. The Nextview Licensed Imagery data will be used only for the project outlined below. These data are not in the public domain and nothing in this agreement shall be construed as making the data available to the public.
3. The data will not be made available to the public and will not be placed on publicly available web sites. The data shall be only released only in performance of the below named NASA project to employees and contractors necessary for the performance of the NASA project. There shall be no further release, distribution, dissemination or publication of the data by recipient except as authorized by this Agreement.
4. Reduced resolution jpeg images may be published in academic and professional media. However, any published data may not be manipulatable in any manner (i.e. data must be low resolution “dumb jpegs.”)
5. There is to be no commercial use or gain from either the use of the data or from publications describing the data.

**NEXTVIEW IMAGERY END USER LICENSE AGREEMENT**

1. Introduction. This End User License Agreement ("EULA") is between DigitalGlobe, Inc., a Delaware Corporation ("DigitalGlobe" or "Seller") and National Geospatial- Intelligence Agency ("NGA"), the purchaser of this EULA, which governs the use of the data products or documentation ("Products") accompanying this EULA in accordance with Contract NMA 301-03-3-0001 (the "Contract").
2. Applicability. This license applies to imagery and products licensed under the Contract, including data downlinked to domestic and foreign ground stations.
3. License Granted and Permitted Uses.

a. General Terms

1. This clause applies to all unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data licensed under this Contract. No other clauses related to intellectual property or data rights of any sort shall have any effect related to the unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data delivered under this Contract.
2. All license rights for use of the unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data provided to the U.S. Government purchased under this NGA contract are in perpetuity.
3. Licensed users may generate an unlimited number of hardcopies and softcopies of the unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data for their use.
4. (i) Licensed users may generate any derived product from the licensed unprocessed sensor data; and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data. (ii) Unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data licensed under this NGA contract have no restrictions on use and distribution, but shall contain the copyright markings.

b. Licensed Users

1. The imagery may be used by the U.S. Government (including, all branches, departments, agencies, and offices).
2. The U.S. Government may provide the imagery to the following organizations: State Governments Local Governments Foreign Governments and inter-governmental organizations NGO's and other non-profit organization
3. In consideration for the flexibility afforded to the U.S. Government by allowing unprocessed sensor data and requirements-compliant processed imagery, imagery services, imagery-derived products and imagery support data to be shared, the United States Government shall use its reasonable best efforts to minimize the effects on commercial sales. Acquisition and dissemination of imagery and imagery products collected within the United States shall be restricted in accordance with law and regulation.
