

# Charge to Round-Robin Topical Breakouts

- 1) Science lessons learned during ABoVE (*Center Auditorium*):** What are the top-level highlights of our science? What are the most impactful advances?
- 2) Infrastructure lessons learned during ABoVE (*South Auditorium*):** What have we learned about running coordinated field campaigns, data management, logistics across institutions, and keeping investigators safe? What is the relevance to current scoping studies and future campaigns?
- 3) Knowledge gaps (*Room 2126*):** What are the key remaining knowledge gaps? What did we miss, not do well, or were unable to address?
- 4) Engaging and collaborating with communities, land managers, and decision-makers (*Room 2603*):** How can we make our science more inclusive and impactful? How can we connect earlier with potential users? How can we engage together as a Science Team, not just in individual projects? How can we begin an equitable spin-down of existing collaborations?
- 5) Research legacy in the ABoVE Domain (*Room 2607*):** What are the continuing projects post-ABoVE, priorities for follow-on research, links back to knowledge gaps?

First 20-Minute Session	Last Name
1	A-D
2	E-I
3	J-M
4	N-S
5	T-Z

**Second rotation suggestions:**  
Session Number +1, stay in your first session, or move based on interest
