- Protection of the Arctic Marine Environment

SDWG
- Sustainable Development Working Group
What We Work On

- Food security
- Community Based Monitoring
- Indigenous Peoples’ rights
- Environment
- Climate Change
- Contaminants
- Sustainability
- Biodiversity
- Culture and Language
- Resource Development
- Arctic Sovereignty
- Health
Kitigaaryuit Declaration/ ICC-Alaska Strategic Plan

- Connect and promote community-based monitoring (CBM) programs
- Promote retention/transmission of Inuit Indigenous Knowledge (IK)
- Insist upon use of IK in scientific work and relevant decision-making processes
- Food Security
Welcome to the Atlas of Community-Based Monitoring in a Changing Arctic. Arctic communities are actively involved with observing social and environmental change; this atlas was designed to showcase the many community-based monitoring (CBM) and traditional knowledge (TK) initiatives across the circumpolar region.

If you are involved with a CBM initiative, we hope you will consider joining the atlas.

This site also features a map of Inuit Mental Health and Wellness initiatives.

The atlas was brought to you by these partner institutions:
Quyanaq, Quyana, Taikuu
