

## YELLOWKNIFE, NWT CANADA

During the ABoVE Airborne Campaign, we will have our own operations center at Adlair Aviation, a full service FBO at the Yellowknife Airport. The operations center is suitable for pre and post-flight tag ups of the instrument and flight teams, science team leaders, and campaign managers. Airfield Operations are available 24/7. This document is intended to provide an orientation to locations and services that may be of value to flight teams.
